

SENATOR MADE A PLEA TODAY

Reed Smoot Of Utah, Says That He Never
Believed In Polygamy Or Practiced It.

TOLD OF HIS OATH IN THE CHURCH

Says That Mormon Court Officials Do Not Allow The Act
Of Polygamy To Go Unpunished In
That State.

[BY ASSOCIATED PRESS.]
Washington, D. C., Feb. 19.—Senator Reed Smoot made his long expected speech on his own case in the senate today. He spoke for about a half hour and his address proved to be a straightforward statement. Senator Dillingham followed in an argument in support of Smoot. In speaking in his own defense before the senate today Senator Reed Smoot of Utah condemned polygamy in the strongest terms and declared polygamy does not now exist in Utah and nothing that

he never had taken an oath as an apostle in the church which would in any way prevent him discharging his duties as a senator or a citizen with the utmost fidelity. He himself had never had but one wife and would not think of giving his official or personal sanction to any other arrangement in the case of other members of the Mormon church. Not only are there no more plural marriages, insisted Smoot, but Mormons in charge of the Utah courts always have vigorously prosecuted any members of their church guilty thereof.

COOPER SICK; DAM BILL PUT THROUGH

Permit to Create Water Power Just
South of Beloit Make Result
In Flooding of City.

[SPECIAL TO THE GAZETTE.]
Beloit, Wis., Feb. 19.—Telegraphic dispatches from Washington last night announced that the lower house of congress passed a measure permitting the construction of a dam across Rock River at a point south of the Wisconsin state line. This measure has been fought by Representative Cooper and it was thought had been killed. Mr. Cooper being sick was absent from the house yesterday and the bill was railroaded through. Should the proposed dam be built between here and Rockton the water up to the Beloit dam would be raised five or six feet. This would perpetuate spring freshet conditions and all South Beloit would be flooded the year around. If the proposition is to create the water power between Rockton and Rockton the village of Rockton and vicinity will suffer in a similar way. The matter will cause considerable commotion here and no doubt, strenuous efforts will be made to have the bill killed in the senate.

To Build Big Gas House
The Beloit Water, Gas and Electric company, the recently incorporated general utility company, has practically closed the deal for a purchase of eight acres of land between the North-Western railroad tracks and the river in the northern part of the city. This tract will be used as a site for an immense gas house, the capacity of which will be ten times as great as that of the present plant.

Died on 93d Birthday
Mrs. John Favour died last evening on the ninety-third anniversary of her birth. She had resided in or near Beloit for the past thirty-three years and is survived by two sons and three daughters.

[SPECIAL TO THE GAZETTE.]
Philadelphia, Pa., Feb. 19.—After one of the hottest campaigns in her history Philadelphia is voting today for a mayor, recorder of taxes and minor city officials. The alignment of the opposing factions is along the same lines as at the last election, which resulted in a signal victory for the reform forces. The contest is one in which the reform element in both the old parties, united under the banner of the city party, is endeavoring to defeat the old republican organization, which has had the management of the city's affairs in its grasp for so many years. William Potter, prominent as lawyer and financier, once minister to Italy and for years prominent in Philadelphia public affairs, is the mayoralty candidate of the city party. The organization ticket is headed by Congressman John E. Reayburn, while the democratic candidate for mayor is William C. Bennett.

MRS. THAW FINISHES STORY OF WHITE AND HIS CRIMES

Can Not Tell All The Awful Things That Happened To Young Girls In His Studios.

[BY ASSOCIATED PRESS.]

New York, Feb. 19.—Evelyn Nesbit Thaw was the first witness in the Thaw trial today. Mrs. Thaw identified forty-two letters as having been written by White. Mrs. Thaw also testified that May McKenzie told her White had said the love between Thaw and his wife would not last and he would get her back. Mrs. Thaw said she had a second operation in January, 1905, which was paid for by Harry Thaw. She said Thaw told her her illness was due to White. The nature of the operation was not gone into. The witness said she met White at May MacKenzie's bedside in 1904 and he had attempted to embrace her. She said when she told Thaw he became very excited and nervous, as he did whenever the subject of White was mentioned. Mrs. Thaw identified a letter from Thaw to Anthony Comstock, in which he described White's studios. He said they were "consecrated to debauchery" and used by a "gang of rich criminals" that girls were taken to one of them to perform felony. Delmas asked the witness to describe White's unnatural practices on young women of which Thaw had told her, but Mrs. Thaw said she could not. "They are unspeakable," Mrs. Thaw then left the stand, having completed her direct testimony. Jerome has reserved the right to cross-examine her, if it is determined necessary. Mrs. J. J. Caine of Boston, testified as Mrs. Thaw did. Mrs. Nesbit that he be allowed to marry her daughter. She also testified to an incident at a theatre in which White appeared, the object being to show the effect White's presence had on the defendant. When Mrs. Caine was taken in hand by Jerome he began a searching inquiry into her acquaintance with the Thaws, and asked her all about their maneuvers. Directing his questions particularly to a trip which Thaw and Evelyn made to Europe, he brought out the fact that Mrs. Nesbit had not accompanied her daughter on this trip. He also asked about the "Hotel Cumberland episode," referring to the time when Miss Nesbit and Thaw were required to leave the hotel unless Miss Nesbit and Thaw register as man and wife. This latter fact was not got ten before the jury when a recess was ordered. Mrs. Caine's cross-examination was resumed after the recess and continued to 2:45, when Mrs. Thaw was recalled. Jerome said this afternoon if it could be shown that Thaw was really insane he would be the first to stand up and admit it. Delmas insisted that Mr. Jerome proceed with a cross-examination of Mrs. Thaw, protesting against any further delay.

SMOOT WILL PROBABLY RETAIN SEAT IN SENATE

It Now Seems That The Two-Thirds Votes
Necessary To Expel Cannot Be
Secured.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., Feb. 19.—The fate of Reed Smoot will be determined tomorrow, when the senate will vote to determine whether he shall be accepted as the representative of Utah in that body. The indications are that the senate's vote will be expressive of their confidence in Mr. Smoot. The opposition, however, is carrying the fight to the last ditch and is hopeful that the vote will be against the Utah man.

It takes a two-thirds vote to expel from the United States Senate. As the senate is nearly two-thirds republican this means that all the democrats and half the republicans would have to vote to turn Smoot out. There is little in the private comment of senators to indicate that any such degree of opposition to Mr. Smoot as this exists.

If Smoot is unseated it will be because he is a member of the governing body of the Mormon church. It is alleged by Senators Burrows, Dooliver, Bailey, Pettus and others who would unseat him that by repeated acts he has, as a member of the quorum of the twelve apostles, given aid and support to the hierarchy in its defiance of the laws of his own state and of the general government. It is alleged that he as a member of the inner circle of the apostles has indirectly, if not directly, encouraged polygamy. Many persons have read and interpreted the impression that Senator Smoot has been guilty of polygamy, but this is entirely erroneous. The fact is that the committee of the senate, which by a vote of seven to five reported in favor of unseating the senator, exonerated him from the charge of polygamy. The defenders of Senator Smoot admit that as one of the fifteen men constituting the ruling authority of the Mormon church he knew that polygamy was practiced by some of the officials of the church, but they insist that the influence of Smoot has been steadily in favor of reforms in the church. It is asserted that through his efforts the church has been brought to much higher plane.

HOSPITAL TRANSFER
WITHIN SIX WEEKS

Promoters of the Project Expect to
Buy the Palmer Property on or
About April 1.

Members of the committee of busi-
ness men who have had under consid-
eration the plan of securing adequate
hospital facilities for the city and
representatives of the Sisters of
Mercy who are expected to take
charge of the institution, had a con-
ference on Sunday and it develops
that the transfer of the Palmer Me-
morial property will probably be made
by April 1. The required amount of
money has not yet been raised, but a
goodly portion of it has been secured
and the owners are willing to make
some generous concessions. Plans
for securing the balance needed to
complete the transaction are under
consideration and there is every pros-
pect that the project will assume a
very real and material form within
the next few weeks.

MEETING OF THE
COMMON COUNCIL

MAYOR HUTCHINSON, WAIVED
PROPOSED APPROPRIATION.

FISH ATTACKED ONION-CART

And Brockhaus Carried Through a
Measure Providing For Alder-
manic Decorations.

Aldermen Rudolph and Hager were
again absent from the session of the
common council last evening. The
report of the city treasurer for the
month of January was received and
placed on file and the recommendation
of William W. Watt as alderman from
the third ward, the same to take ef-
fect on March 18, was accepted on mo-
tion of Alderman Merritt. At a pre-
vious session resolutions had been in-
troduced allowing Mayor Hutchinson
\$137.50 for 55 days service on the
board of review at \$2.50 a day during
the years 1904-06, and \$50 for ex-
penses while attending the League of
American Municipalities meeting in
Ashland last August. The city attor-
ney was asked to submit opinions on
the legality of such steps. Just be-
fore the prolonged recess last evening
Mayor Hutchinson presented the
following communication:

Members of the Common Council.
Gentlemen: I have instructed the
city attorney not to file an opinion as
to the legality of the claims present-
ed to this council at its last regular
meeting by Alderman Connell, as
chairman of the finance committee,
for the purpose of defraying the ex-
penses incurred by me for attending,
at the request of this council, a con-
vention of the League of Municipal-
ities of Wisconsin, held at Ashland
last August. And, also, to pay for
my time while chairman of the Board
of Reviews during the session of that
body.

It is now, and always has been, my
policy while mayor of this city, to so
conduct its affairs as to render as
light as possible the burden of its tax-
payers. Therefore, I request the
member who introduced the claims to
withdraw them at this time.

Realizing, as I do, the alarming
rapidity of the increase of our taxes,
which is getting to be no light burden
on the citizens, it is my desire to
avoid increasing them by the allow-
ance of any unnecessary claim.

I desire to request the hearty co-
operation of the council to aid in this
direction.

J. F. HUTCHINSON,
Mayor.

February 18th, 1907.

Financial Transactions.
Chairman Connell of the finance
committee reported favorably on bills
totaling \$100.33 and the salary list
including \$10 each for Aldermen Mer-
ritt, Buchholz, Shoridan, and Watt.
The city clerk was instructed by or-
der to draw on the city treasurer in
the sums of \$79.61 payable from the
general fund to correct an error in the
fifth ward assessment of Pretzfeld
& Co.'s tobacco holdings, at \$5.40 in-
stead of \$50; and \$50 for the use of
the city attorney in paying witness
fees in the cases to be tried during
the February term of the circuit court.

The chief engineer was instructed to
accept an offer of \$300 for the gray
fire department team.

Lunch Wagon Must Keep Moving.
Alderman Fish had not abandoned
his plan of having the residences of
the city numbered. A motion call-
ing upon Mayor Hutchinson to appoint
a committee of three to investigate
the matter, determine which plan
would be the best one, and report at
the next meeting, was introduced and
passed. His Honor named Alderman
Fish, City Engineer Kerch, and Alder-
man Connell as the committee. Alder-
man Fish also introduced a measure
instructing the police not to allow the
"onion-wagon" to stand more than five
minutes in any one place, day or
night. The purchase of a garbage
wagon at a cost not exceeding \$110
was authorized by a motion and Mayor
Hutchinson appointed Health Com-
missioner Merritt, and Aldermen
Connell and Dunn as the committee to
make the selection and deal.

Street Improvements.
Street Commissioner Sennett was
instructed by orders to build brick
crosswalks, as soon as the weather
permits, on East High street across
West Bluff, on North Ravine across
Chatham, on East Chatham across
Ravine, to remove the old sewer box
located at the eastern end of West Mil-
waukee street, and to have the drink-
ing fountain at the corner of Eastern
avenue and McKee boulevard re-
paired.

Regalia for Officials.
The city clerk was directed to pur-
chase and keep in his office for the
use of city officials one copy of Ham-
ilton on "Special Assessment," at a
cost not to exceed \$7.50. On motion
of Alderman Brockhaus the city clerk
was instructed to order at once for
the mayor and aldermen of the city of
Janesville, suitable metal stars such
as are worn by similar officials in other
cities. The representative from the
third ward spoke briefly in favor
of his measure, stating that the alder-
man has a right to make peace and
otherwise assert his authority in a
time of stress, and that this means
of identification would prove a
handy and useful one. The order
passed without opposition.

Suicide Among Negroes.
The number of negroes committing
suicide is increasing rapidly each year,
but before emancipation such things
as a negro killing himself was almost
unheard of. Now they occur with
great frequency.

Good Opinion

Miss Helen M. Manning, a dress-
maker residing at 4638 Aspen St. West

John's Medicine. Miss Manning
was troubled with a cough of long
standing, and reading in her Sunday
school paper about Father John's
Medicine, she decided to take it. Her

BRODHEAD GROWING
VERY RAPIDLY NOW

Citizens Hustling to Make City One
of Importance in Southern
Wisconsin.

(By Staff Correspondent.)
Brodhead, Wis., Feb. 19.—Should a
stranger walk into Brodhead on a
Monday morning as I did, he would
find one of the hustling little cities
of southern Wisconsin alive to its pos-
sibilities. Monday is stock day and
the streets were filled with big fel-
lows with fur coats and boots who had
come to deliver their loads or droves
of stock, flocks of chickens, ducks, or
geese and even fine cat hogs. They
had an air of prosperity and the stores
were well filled with purchasers for
most of these farmers appeared to
have brought members of their family
with them for the week's purchasing.

The business section of the city is
near the depot. Fifty years ago the
village of Deatur was started some
three miles from the present site of
Brodhead but when the St. Paul rail-
road built its line through the country
with the perversity of modern Ocho-
puses it chose to go to the town so
the town moved to the railroad and the
result is Brodhead. Two banks do a
live business and two papers furnish
the surrounding country with the local
jottings. The drug stores, the notion
stores, the dry goods and furnishing
stores all show evidence of prosperity.
A good hotel near the depot has an
excellent table and the streets are
wide, allowing plenty of breathing
space. The city has electric light, gas,
water, steam heat and all modern
conveniences. Its citizens are
hustlers and the business men are
bustlers.

After Packing House.
Just at present the citizens are at-
ter a sorting and packing house of
the American Tobacco company and
a committee is going the rounds of
the city, enticing the business men to
sign their names for money enough to
raise the bonus necessary to bring
them here. One large sorting and
packing house is already in operation;
a sizable building with plenty of room
and good light and excellent sanitary
conditions. Now they want another
and the citizens appear to be alive
to the necessity of subscribing liber-
ally to the project. They are still
shy the sum required but hope to have
it soon.

Mr. Kellogg has associated with him in the present investigation of the Harriman combination of railroads, Mr. C. A. Severance, an attorney of St. Paul. pure and unadulterated to the ladies in the audience. The situation is that of a proud father and an equally proud uncle, with one or two enthusiastic friends to help out, who are discussing the outfitting of a newly born infant. They have already ordered six prize Jersey cows to supply the babe with provender against the predicted want, and are discussing the nurse question. The attending physician has just said that Miss Johnson, a special trained nurse, will not be required after the next week. Also that Miss Johnson alone has been taking care of both the infant and its mother. The "Oh, yes, one of the best," "Then she stays, sec? and we hire another one to help," Miss Johnson can be boss, and the other one can be the helper, and they can work eight-hour shifts.

Words of Praise

For the several ingredients of which Dr. Pierce's medicines are composed, as given by leaders in all the several schools of medicine, should have far more weight than any amount of non-professional testimonials. Dr. Pierce's Favorite Prescription has the badge of HONESTY on every bottle wrapper, in a full list of all its ingredients printed in plain English.

If you are an invalid woman and suffer from frequent headache, backache, gnawing distress in stomach, periodical pains, disordered catarrhal pelvic organs, dragging down distress in lower abdomen or pelvic, perhaps dark spots or specks dancing before the eyes, faint spells and kindred symptoms caused by female weakness, or the derangement of the feminine organs, you can do no better than take Dr. Pierce's Favorite Prescription.

The hospital, surgeon's knife and operating table may be avoided by the timely use of "Favorite Prescription." In such cases, thereby the obnoxious examinations and treatments of the family physician can be avoided and a thorough course of successful treatment carried out to the recovery of the home. "Favorite Prescription" is composed of the very best native medicinal roots known to medical science for the cure of women's peculiar ailments, contains no alcohol and no harmful or habit-forming drugs.

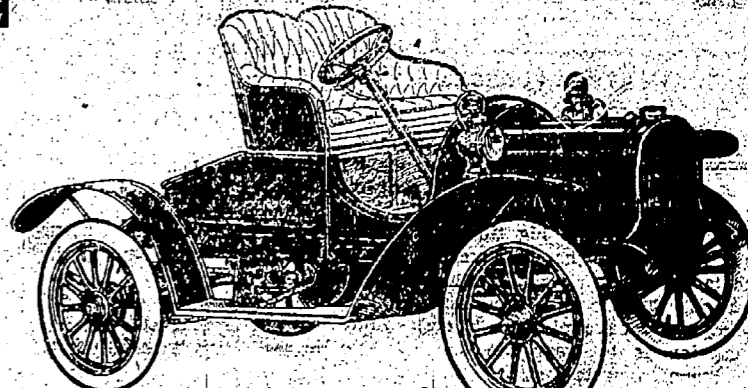

Do not expect too much from "Favorite Prescription"; it will not perform miracles; it will not dissolve or cure tumors. No medicine will. It will do as much to establish vigorous health in most weak women as any medicine can. It must be given a fair chance by perseverance in its use for a reasonable length of time.

You can afford to accept a secret nostrum as a substitute for this remedy of proven composition. Sick women are invited to consult Dr. Pierce's Little Pink Pills. Little correspondence is required. Little cost. Little delay. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic. Easy to take as candy.

Desperate Coughs
Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral for these severe cases. We have no secrets. We publish the formulae of all our preparations. J. C. Ayer & Co., Lowell, Mass.

WISCONSIN WEATHER FORECAST

Generally fair tonight and Wednesday, not much change in temperature.

ALDERMANIC STARS

When you see an alderman coming down the street with a big tin star on his coat look out. That star means that he is bent on a special mission. It is a handy thing to have a mission, but the aldermen have missions. Their chief mission is to wear the star. One alderman suggests that now they have the star they should also have the policeman's salary as well. Another suggests that now they have the star it will be so convenient to order out the patrol wagon to ride home from parties in and not have to hire a carriage or walk. It is to be hoped that when the aldermen wearing stars go into a saloon on Sunday or after hours they will cover up the stars and be inconspicuous. Otherwise it might lead to complications. Supposing complications arose after they got their tin stars? It is awful to contemplate. The next thing in order is for the council to pass a resolution ordering the aldermen to wear their stars on the outside of their coats. Sort of Legion of Honor decoration as it were or pass an order that all aldermen owning dogs should see they had two tails.

REDUCED RAILWAY FARE

The state railway commission has decided that the railways shall make a two-and-a-half-cent-a-mile rate. They discuss the matter thoroughly in a hundred-thousand-word report, going into details and minutest particulars. Their decision was reached after mature deliberation and careful consideration of the entire situation. They looked upon the matter from all sides and decided that a lower passenger fare would mean that freight rates would have to be raised, which would be a hardship to the shippers. It is safe to say that the railways will accept the decision without protest, but that the bills now pending in the legislature which call for a two-cent fare will not be dropped. In fact, the Milwaukee Free Press intimates as much this morning in a pointed editorial. The demand for a two-cent fare, for a fare which the railway commission says would be detrimental to the state and citizens generally, will be pushed by the radical reformers who do not know when to stop.

GUM-SHOE CAMPAIGN

Thus far the spring campaign has been a gum-shoe one. Thus far the candidates for the various city offices have confined their energies to button-holing voters and expounding their respective merits for the office they seek. When the fun really begins, when the red fire and sky-rockets appear, then the campaign will be really on. Janesville is a hot bed of politics. The air seems surcharged with political talk owing to the continuous struggle of the past six years and the only trouble the candidate finds is that the voters do not get out to vote. They will talk politics strong enough, but will not vote at the primaries. Here is the rub. However, if the citizens who are interested in a good stable city government have the interest of their city at heart, exert enough will, power and energy to go to the voting places on primary day, good substantial men will be nominated and elected.

One effect of the Thaw trial in New York is that it has opened the eyes of the world that monsters exist today who seek to devour human life and happiness just the same as they did in days of yore when knights made themselves famous by killing fabled creatures who feasted upon young girls.

Traveling men who pass through the tobacco and sugar beet region of Wisconsin extol the prosperity of the merchants. Where they sold seventy-five and hundred-dollar orders last spring they are now selling two and three-hundred-dollar consignments.

Mayor Hutchinson has eased the minds of many of the aldermen who feared he was going to claim pay for certain trips made in the interest of the city and for harder work than attending council meetings at five dollars per.

Perhaps Thaw likens himself to St. George. In his murder of Stanford White, St. George killed a dragon that was about to devour a young and beautiful girl and Thaw claims that White was just such a dragon.

The small boy and the slot machines are great temptations. Sometimes the penny does not work and a few energetic bangs will bring forth the gum, and then the small boy who finds the treasure rushes away to tell his companions.

The old theory of the office seeking the man is exploded. Now the man must seek the office. Under the new primary law the candidate must do

the work himself, not delegate any friend to do it for him.

Washington has had a taste of the cold-water delegates along with the colored delegation and the anti-Smoot and the Smootites. Truly the national capital is a cosmopolitan place.

One of the members of the legislature would put a rider on the University appropriation to the effect that the licenses of the city of Madison for saloons be raised.

The great unwashed of the democratic party have begun to sit up and notice things and have suggested that George McKey run for Mayor on their ticket.

Clinton is to have a home-coming July 3d, 4th and 5th. Thus far the plans for a celebration in Janesville are merely talk.

Farmers are again enthusiastic over the prospects for bumper crops of sugar beets and tobacco for the present year.

If Janesville wakes up it can secure that big tobacco sorting house that Brodhead is after.

Another train horror; this time on an electric road with its deadly third rail.

Senator Reed Smoot is today telling the Senators why he should keep his seat.

President Roosevelt has not sent a message to congress for a week past.

REMEDY DID NOT WORK.

Youngster Evidently Would Take Years Getting to Sleep.

Some ten or a dozen years ago my brother next older than myself, then about seven years old, was finding some difficulty in getting to sleep, says a writer in the Boston Herald. My father, noticing his apparent restlessness, went up to his room and asked him what was the trouble, and upon learning the difficulty prescribed—my father is a physician—for him as follows:

"So you can't sleep. Well, now I'll tell you something that will just put you to sleep in no time, and that is counting. You begin now and count slowly up to, say, 100, and then, if necessary, count another hundred, and then, possibly another, and before you know it you'll be sleeping just like a top."

"All right," replied my brother, "I'll try it."

Everything remained quiet until shortly after 10 o'clock, when my father started upstairs to retire.

As he passed the door of my brother's room a little, high-pitched voice piped out of the darkness:

"Papa."

"Yes, my boy."

"What comes after trillions?"

TRAITS OF BURMESE GIRLS.

Not All of Them Are Too Good For the Earth.

The Burmese girl when she is good is so very good that nothing like her is to be found out of the books for young ladies of the early part of last century. But for all that she does not mind being eloped with, if there is nothing expected of her but to be seized in the street, and carried off to a carriage or a boat, and carried off to some place where her silks will not be too much rumpled, and where there is plenty of cocoanut oil for her hair. The Burmese girls who are not so very good—and there are quite a lot of them—are not so easily eloped with. They dislike the worry of it, when things can be managed so much more simply and without the notoriety which makes a divorce and a fresh combination so much more troublesome. They like variety, and are quite of the opinion of the misguided small boy who said the marriage of one man to one woman was called matrimony.—Chicago American.

The Meaning of "Caliber."

All who have to do with firearms know that the word "caliber" refers to the diameter of the bore of a shooting piece. Thus a pistol of 22-caliber means one in which the bullet is twenty-two one hundredths of an inch in diameter, while a .45-caliber means one with a diameter of forty-five one hundredths. There is, however, a more extended use of the word, which is understood by comparatively few people outside of army and navy circles and gunmakers. A 50-caliber 6-inch gun, says a naval man, "means one that is 50 times six inches, or 30 feet long, the length being given in terms of the diameter of the bore. In the same way a 10.45 pistol means one the barrel of which is ten times the diameter, or four and a half inches long. This nomenclature is found convenient because the shooting qualities of a piece depend in some measure on the ratio of its length to its diameter."

The Stout Man at the Reception.
The guest at the crowded reception turned to the stout stranger in the corner.

"Well," he said, "I guess it's about time for us to go up and tell the hostess we have had a lovely evening."

The stout man shook his gray head.

"I can't stultify myself enough to do that," he said.

"Of course, it's the customary thing," suggested the other man. "We can't get out of it."

"The hostess wouldn't believe me," said the stout man.

"I guess she doesn't believe any of us," chuckled the other man.

Again the stout man shook his gray head.

"It is a little different with me," he

sighed. "I'm her husband." And the crowd moved on.

Making Tea Without Fire.

The world was white with snow. Snow flurries rose up and danced whirling like white demons down the road before the bitter wind.

"By-r-r," said the half-frozen plasterer, "we'll brew a cup of tea."

"But you've no fire."

"Don't need no fire."

He made a hole in a pile of lime poured water into the hole and set his tea kettle in the water.

The lime smoked, hissed. The water began to bubble.

"Here yare," said the plasterer a few minutes later, advancing with two cups of hot and fragrant tea.

"He Had To Acknowledge The Corn."

The other day a dental traveling man was in to see Dr. Richards to sell him some good tooth powder. In visiting together, the doctor showed him some of the beautiful work he is putting out among his patients and asked him point blank: "In your visits among other dentists here, do you see any such beautifully finished work as I am doing?" Of course, the traveling man hesitated, saying much, considering the fact that he sold goods to all the dentists in the city. But he did acknowledge that this work was more finely finished than any he had seen in Janesville. "Now, the specimens shown him were not special cases but just regular finished work the same as Dr. Richards gives everybody. You can fairly see your face reflected so fine in the polish he puts on his rubber plates. Now all this means extra work. Extra care taken to give you the best there is. And his prices are another attractive feature. His patients never feel like calling him Dr. Big Fee. Try him yourself for your next needed dental work. PROPOSED ASSORTING YARDS OF C. & N. W. NOT TO BE COMPLETED THIS YEAR.

SOME LAND TO BE RENTED

Matter Was Decided at Recent Meeting of Railway Officials—Much Building Elsewhere.

Just how much building the Northwestern Railway company will do this year on their three-hundred-acre tract of land in southwest Janesville is a matter that is not known beyond the inner circle of officials at Chicago. In fact, it is doubtful if any detailed plans for 1907 have as yet been made. But it is practically certain that the construction of the proposed freight assorting yards, thirty-eight stall roundhouse and adjoining shops, will not be completed when winter closes next November or December. Such a surmise is based on the fact that at a recent meeting of officials it was decided to rent a portion of the land this season. The fact that some land is not to be leased is assurance that some work will be done. Whether sidetracks will be laid or work on the buildings be started is not known.

WOULD PERPETUATE BUN-CART RAMPANT

Some of the Disrespectful Suggest Designs for the New Aldermanic Stars.

Pursuant to the order of the council to buy stars for the aldermen and mayor, City Clerk A. E. Badger and City Marshal Appleby were looking over a catalogue of decorative emblems this morning. The clerk's statement that he had no instructions as to cost or design, and the rejoinder from an onlooker that the best was none too good for Janesville, even gold plate and diamond points, brought forth suggestions from some of the other wayfarers who chanced to be tarrying there. "A bun-wagon, rampant with a field of green onions, conchanted, would be a chaste design," suggested one. "Ought to get in those bridge timbers, a scroll containing the city attorney's decision on the salary question, and a facsimile of the city hall," volunteered another. "Gold-embroidered collars for the unointed should be the next step in the line of progress," said a third one. "Let's have our aldermen fitted out with real regalia, London's Lord Mayor goes in for this sort of thing."

Four Hundred High School Students Marched Out from Twenty Rooms in Less Than Two Minutes.

Fire drills in the larger school buildings of the city were ordered by the Janesville Board of Education at the regular monthly meeting held last evening. The resolution was in the form of an instruction to Superintendent H. C. Buell and allowed him to use his judgment in the regulation. The members of the board believe that the emptying of a building by an unexpected alarm of fire defied the purpose of drills—the protection of the pupils. As such tactics resulted in the fainting of many girls and the spraining of ankles the more sane method of practicing marching out should be adopted. These proposed drills were instituted today. While the four hundred students of the high school were scattered in twenty rooms the alarm was given. In less than two minutes every scholar, whether he or she had been in the attic or basement, had passed down the central stairway and out of the building. The side stairway and the fire escapes will be used at some future time. This afternoon there was a drill in the Adams school building, in the second ward and there will be drills in other schools before the end of the week.

Birds which are no "gregarious" during the breeding season as a rule repel others of their kind from the chosen nesting site, so that the young of the previous year, which might naturally incline to return to nest near where they were reared, are driven to seek a breeding place elsewhere.

Of course if President Ban Johnson of the American League finds that he cannot support the dignity of the position and buy fishing tackle on a salary of \$15,000 a year he shall have another love feast next fall with a new set of jackscrews. Ban is a great believer in high salaries for himself.

Blytheville, Ark., Feb. 18.—Two men were killed, two fatally injured and several others hurt as a result of an explosion of a boiler at a sawmill plant at State Line, Ark., Monday.

Many Killed in Mine Explosion.

Montezy, Mex., Feb. 19.—An explosion occurred Monday at Las Esperanzas, in the Conquistador mine. Thirty dead bodies have been taken out of the wreck and it is estimated that 75 more are yet in the mine.

Thirty Oil Wells on Fire.

One Argument for Good Roads.

One way to get a man interested in good roads is to get him to drive over country roads as they now are. If he does not then become an enthusiast he must be blind, deaf, dumb or lacking in mental equipment.

Forced to New Breeding Places.

TONIGHT

LAST OF BIG JEWELRY AUCTION

This big public sale of the former stock of F. C. Cook & Co. ends TONIGHT. The object of the sale has been accomplished even earlier than we had anticipated, and the extremely heavy selling of yesterday and today decided definitely as to the ending.

This event has been a wonderful piece of merchandising, buyers flocked to the store from near and far to secure the rare bargains offered, and we do not believe there is a single purchaser but that is pleased with the sale. There is bound to be among so many transactions some unintentional errors and any complaints have been righted as quickly as possible in every instance. Every buyer has secured a full dollar's value for every dollar spent, and it is to the credit of the community that it is so keen to discern remarkable values. We desire to express our appreciation to the public for its generous attendance and patronage on these sales and will do all we can to merit future patronage.

BREAKING THE NEWS GENTLY.

Flute Player at That Time Was Beyond Reasoning With.

The tenant faced the landlord with a determined look.

"That man you let into the vacant suite last week," he said, "plays the flute."

"Does he play much?"

"No, he only plays a little. He plays a great deal of the time, but he only plays a little."

"You mean that he's a poor player?"

"I mean that he's a player with poor taste. Any flutist that gets up at two o'clock in the morning and tootles out scales and things isn't much on taste to my way of thinking."

"I'll have to have a talk with him," said the landlord.

"It's no use," sighed the tenant. "He won't listen to you."

"We'll soon find out about that," said the landlord as he reached for his hat.

"It's no use, I tell you," repeated the tenant. "Him and me had a fight last night and I broke his flute and he moved out this morning. That's what I came to tell you."

As Others Saw Him.

The artist possessed a strange talent. It was to depict a face as it will look after the years have gone by and made it old.

At dinner with him sat an old man, old enough, in all conscience, and unbecomingly. The artist at once bustled himself with drawing a sketch of him, which so exaggerated his age and ugliness that the lip of the old man trembled at the sight of it and a tear rose to his eye.

A woman who sat at the same table took pencil and paper and began to draw not the old man but the artist, who, though young, was quite as unbecomingly. She fashioned the uneven line of his profile, the small, crooked nose, the unstable chin, the high bald forehead, the fringe of hair around the edge of the baldness, the neck, the collar, and handed it to him.

"The likeness is perfect," cried the others. "We didn't know you could draw. When did you learn, and how?"

"I can't remember when I learned or how, I have drawn so long," said she, "but," as she saw the chagrin of the artist, "I seem to have been educated in art for the triumph of this moment."

Secret of Jewish Success.

Isaac Seligman, the well-known New York banker and philanthropist, was asked several days ago why Jews invariably succeed, and his reply was: "My people keep their heads, work hard and spend their spare time in their homes."

Immense Sum for Armament.

At the present moment the countries of Europe are spending on their armies and navies as much as \$4,000,000 a day.

Origin of "Piccadilly."

A new theory as to the origin of "Piccadilly" was put forward by Archdeacon Bickersteth about 40 years ago, says the London Chronicle. He had discovered a Piccadilly among the Chilterns, the central one of three conical hills near Ivinghoe, and he learned that this hill had at one time been known also as Peaked hill. Might not London's Piccadilly likewise be a peaked hill? No doubt the hill in Piccadilly is not remarkably peaky, but then the same thing might be said of the Derbyshire peak itself. There is another Piccadilly near Aberystwith, and yet another near Bolton. But in the provinces one always suspects borrowing from London in such cases. There are Hyde Park Corners in provincial towns that have no Hyde Park to justify them.

Equity.

Until recently there was a partnership existing between two darky blacksmiths in an Alabama town. The dissolution of this association was made known by a notice nailed upon the door of the smithy, which notice ran as follows:

"The kopardership heretofore resister between me and Mose Jenkins is hereby resolved. All persons owing the firm will settle with me, and all persons that the firm owes to will gettel with Mose."—Harper's Weekly.

New England Sheep Ranches.

A new use has been discovered for the abandoned farms of New England, so that even if the free alcohol visions do not materialize, the farmers of this section may still have the possibility of fortune making before them. In 1905 a corporation was organized for the promoting of sheep growing through this section, and in two years about 6,000 animals have been imported and leased to the farmers of the state. An educational campaign as to the rearing of sheep has also been conducted through the state and three headquarters ranches have been in operation for the demonstration of the possibility of this branch of the farming industry. The results are said to have been successful. There has been a considerable distribution of sheep, and profits have been earned by the company. If it provides a new means of income from some of the deserted bush-overgrown hillsides and pastures of abandoned farms in New England, it deserves to be encouraged.—Haverhill Gazette.

Keen Criticism.

An English fishmonger was asked by an autograph hunter if he had any letters from Tennyson. He replied: "No, his son writes 'em." He still keeps on the business; but he ain't a patch on his father."
